

We Go **Beyond the Report.**

When you hire us, you get more than a thorough inspection. You get tools and resources to help you navigate next steps and move toward closing with confidence.

Your inspection gives you a clear picture of the home, but it often raises new questions too. **That's why your report includes access to Fixle**, resources designed to help you tackle common decisions buyers face after the inspection.

What Happens After the Inspection?

The inspection answers a lot of questions about your home, but it usually raises new ones. We've built the answers into our process.

- **Insurance:** Homeowners insurance is required before closing. You have the option to request a quote through your report delivery portal and get matched with a vetted provider selected for your property and location.
- **Home Warranty:** Optional coverage to help protect major systems and appliances if unexpected repairs come up.
- **Home Security:** Solutions to help you feel safe and connected from day one.

You'll find these options directly inside your inspection report portal when reviewing your report.

Most homeowners say the hardest part isn't buying the home – it's knowing what to do after. We built our process around that moment, so **you're never left figuring it out alone.**

Know your home.
Own it with confidence.
